TRIBHUVAN UNIVERSITY

- Bachelors in Electronic, Communication and Information Engineering

2022-2024

NATIONAL SCHOOL OF SCIENCES

- High School, Science Stream
- GPA : 3.64

PROJECTS

Portfolio Website

HTML, CSS, JavaScript

A portfolio website built with HTML, CSS, JavaScript, and Bootstrap showcases projects, skills, and contact details in a responsive and interactive design. It includes smooth navigation, animations, a contact form, and social media links, making it ideal for professionals and students to present their work attractively and professionally.

Bus Ticket Software

C-Programming

- A console-based bus ticketing system enables users to book, view, and cancel tickets efficiently. With separate admin and client modules, it manages bus details and reservations. Built in C using structures and file handling, it ensures a simple, efficient, and user-friendly experience for small-scale bus management.

Library Management System

PHP, HTML, CSS

- A web app to keep a record of borrowed books from library. This project was an evaluation of practical grade during my high school.

SKILLS

- PYTHON
- PHP
- JavaScript
- HTML/CSS
- OOP

LANGUAGES

- English: Fluent
- Nepali: Native
